

Boone County Community Network Board Meeting
14 January 2009 (rescheduled meeting from 10 December 2008)
12 pm in the Boone REMC Community Room

Present: Chad Martin, Terry McCain, Randy Parsons, John Wallace, Doug Zitzelsberger

John Wallace called the meeting to order and welcomed everyone to the meeting.

Terry gave a system administration report: the site was switched over to the new server at the end of September. Terry thanked Doug and Randy for all the help and particularly Doug for his help in the switchover. Terry also thanked Chad for hosting the old server in his office for all those years. Terry filled everyone in on updates that she's been working on for the site, and that she has a new site design in the works.

The board members discussed the new server and some upcoming technologies that might benefit BCCN.

The meeting was adjourned at 1 pm.
