

# **DONATION REQUEST**

Zionsville Community Schools prides itself on providing first class health services to all students through staffing a health clinic in each school building with a full-time registered nurse during the entire school day. Zionsville Community Schools is glad to offer this service, but it is costly to do so.

Beginning with the start of the 2008-2009 school year, Zionsville Community Schools will cease charging a fee for the health clinic service, and instead requests a voluntary donation to support the clinical health service provided at its schools. We are asking each family to make a donation of \$45.00 per student on a voluntary basis, to fund the health clinics at each school.

A donation to Zionsville Community Schools Health Services is voluntary. The provision of health care to any student shall not be affected in any way by whether the student or student's parents have paid the voluntary donation.

All donations or contributions made to public school districts in the State of Indiana, including Zionsville Community Schools, are tax deductible in full for both federal and state income tax purposes. Please consult your tax preparer for details.

You may include your donation with your payment of other fees or charges for your student. If you choose to make a donation by a separate check, it should be made payable to "Zionsville Community Schools - Health Services," and sent to the school corporation address below:

Zionsville Community Schools  
900 Mulberry St.  
Zionsville, IN 46077

Thank you for your consideration and support!
